Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Disclosing and Receiving Party

The applicable transaction document identifies roles and purpose. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Confidential Information

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

3. Recipient Obligations

The applicable transaction documents set purpose limitation, protection, need-to-know and copying restrictions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Exclusions

Standard confidentiality exclusions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Compelled Disclosure

Minimum disclosure and notice where permitted. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Governing Law and Signatures

Operational notices may be sent through the Services or business email contacts. Formal notices of material breach, termination or legal process must use the notice details in the applicable Order Form or executed agreement and may also be routed through <https://certamaris.com/contact?intent=procurement> for triage. The applicable Order Form controls governing law and venue. If it is silent, the Agreement is governed by the law of the U.S. state in which the CertaMaris contracting entity identified in that Order Form is organized, without regard to conflicts rules, and exclusive venue lies in the state and federal courts located in that jurisdiction. The parties may agree to arbitration, jury waiver or another forum in the Order Form; no separate mandatory consumer arbitration regime is created by this baseline.
