CONTROLLED EXECUTION TEMPLATE

DOCUMENT OWNER

Product / Commercial / Legal

APPROVER

Authorized CertaMaris Signatory

DOCUMENT PURPOSE / KEY MESSAGE

Provides a controlled framework for technical integrations or strategic partners, including API access, security, IP, data, branding, support and joint activities.

EFFECTIVE

Upon authorized execution

CLASSIFICATION

CONFIDENTIAL - LEGAL

LEGAL STATUS

Purpose, Scope and Controlled Use

Partnership terms for integrations, APIs, joint solutions and co-marketing.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Purpose and Integration

This section describes technical/business objectives and integration scope. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Technical Access

API keys, sandbox/production access, rate limits and documentation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Security

Credential protection, vulnerability handling and incident cooperation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Data Roles

For Customer Personal Data, Customer is controller and CertaMaris is processor, unless Customer itself acts as processor for another controller, in which case CertaMaris acts as subprocessor. CertaMaris may independently process limited account, security, billing and business-contact data as controller for service administration, security, legal compliance and B2B relationship management.

5. Intellectual Property

CertaMaris and its licensors retain all right, title and interest in the Services, software, APIs, Documentation, templates, user-interface designs, control mappings, methodology, Cyber Resilience Twin framework, generalized know-how, and improvements that do not identify or disclose Customer Content. Customer receives only the rights expressly granted in the Agreement. Feedback may be used without restriction provided CertaMaris does not identify Customer or disclose Customer Confidential Information.

6. Brand and Co-Marketing

Public statements must be accurate, avoid implying certification or customer endorsement, respect confidentiality and customer brand requirements, and comply with CertaMaris's opt-in publicity position. CertaMaris will not use a customer name or logo in public marketing without affirmative permission, except where the customer separately authorizes such use in writing.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Support and Maintenance

Integration support ownership and change notification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Commercial Terms

Revenue share, fees or no-fee collaboration. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

10. Compliance

Each party will comply with laws applicable to its performance, including applicable export-control, sanctions, anti-bribery and anti-corruption requirements. Customer will not use the Services for prohibited end users, embargoed activity, unlawful intrusion or safety-critical control. CertaMaris is a workflow and assurance technology provider; it does not issue class, flag-state or regulatory approvals and does not provide legal advice.

11. Term / Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

12. Liability / Indemnity

Allocate integration failures, data misuse and IP claims. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

13. General / Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.
