Provides the controlled structure for explaining how CertaMaris collects, uses, discloses, retains and protects personal data and how individuals may exercise applicable rights.

EFFECTIVE

23 August 2026

CLASSIFICATION

PUBLIC

LEGAL STATUS

Purpose, Scope and Controlled Use

Public privacy notice for CertaMaris websites, platform users and business contacts.

This is the controlled v1.0 CertaMaris public legal document. It is based on verified CertaMaris product, security, provider and operating facts available for this release. Customer-specific contracting-entity and execution particulars are intentionally handled in Order Forms or signature blocks rather than invented in a public notice.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Overview and Scope

CertaMaris is a business-to-business maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience platform. This Privacy Policy describes CertaMaris's handling of personal data on certamaris.com, www.certamaris.com, app.certamaris.com and related business interactions. Customer-controlled content is also governed by the applicable agreement and Data Processing Agreement.

2. Personal Data We Collect

We collect account and identity information (name, business email, hashed password/authentication information, organization membership, role and access scope); business-contact and procurement information; device, network, session, security and audit metadata; support communications; and personal data contained in Customer Content. Personnel data can include names, roles and contact details for CSO, VSO, FSO and other customer-side personnel.

3. Customer Security and Compliance Content

Customer Content can include cyber plans, compliance evidence, risk and gap assessments, corrective actions, vulnerability/SBOM findings, asset inventories, network-zone maps and remote-access pathways. Because this material can reveal a customer's actual security posture, CertaMaris treats it as high-sensitivity Customer Confidential Information and limits its processing to contracted purposes, security, support and lawful obligations.

4. How We Use Personal Data

We use personal data to provide and secure the Services; authenticate and authorize users; administer accounts, contracts and support; maintain auditability; respond to incidents; communicate about procurement and service operations; prevent abuse; comply with law; and improve reliability. We do not sell Customer Personal Data or use Customer Content for targeted advertising.

5. Controller and Processor Roles

For Customer Personal Data processed solely on a customer's behalf, Customer is generally controller and CertaMaris is processor (or subprocessor if Customer is itself a processor). CertaMaris acts as an independent controller for limited account, security, billing/business-contact and relationship-management data needed to run its B2B service.

6. Service Providers and Subprocessors

The current controlled provider list includes Neon, Railway, Cloudflare and Resend. Approved AI routes may use AWS Bedrock and Azure OpenAI only for enabled workflows that satisfy CertaMaris data-classification controls. Direct OpenAI, direct Anthropic, DeepSeek and xAI are not approved for production customer data under the current AI policy. Stripe is not represented as active in this release and must be added to the notice before payment processing is activated.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. International Transfers

CertaMaris is U.S.-operated and may use providers that process data in the United States and other locations. Where applicable law requires safeguards, CertaMaris uses a lawful mechanism such as adequacy, the EU Standard Contractual Clauses, the UK Addendum or another valid UK mechanism, and Swiss adaptations where required. Transfer details depend on the customer's role and actual data flow.

8. Retention

Account data: Life of active account plus 30 days, unless a longer period is required by law, legal hold, dispute preservation, or contract. Audit events: 24 months, subject to longer preservation for an active investigation, legal hold, or customer commitment. Evidence: For the engagement or agreement term plus the configured or contractually agreed retention period. Support/business communications: Ordinarily up to 24 months after closure or last substantive activity, unless a longer period is required for contract administration, dispute preservation, security, or law. Marketing prospects: Ordinarily up to 24 months after the last meaningful business interaction, unless the individual opts out sooner or a lawful reason requires shorter or longer retention. Financial/tax records: For the period required by applicable tax and accounting law; CertaMaris policy targets seven years where no shorter mandatory period controls. Ephemeral security/rate-limit keys: Sliding security/rate-limit window measured in minutes. Legal holds, investigations, disputes and mandatory law can extend retention.

9. Security

CertaMaris applies safeguards appropriate to the sensitivity of the service, including logical tenant isolation, role/object-scoped access, authenticated access, TLS, managed encryption at rest, controlled privileged access, audit/change history, operational logging, separated environments, secure development, vulnerability/dependency tooling, backups, incident response and controlled providers. CertaMaris does not promise absolute security and does not claim SOC 2 or ISO 27001 certification in this policy.

10. Privacy Rights

Rights depend on applicable law and can include access, correction, deletion, restriction, objection, portability, consent withdrawal and appeal. Requests concerning Customer Personal Data are generally handled through the customer-controller. Requests to CertaMaris may be made at <https://certamaris.com/contact?intent=privacy>. CertaMaris responds within the period required by applicable law; where GDPR applies, ordinarily within one month, subject to legally permitted extensions.

11. Cookies and Browser Technologies

CertaMaris uses necessary technologies for secure browser operation and service delivery. The current source reviewed for this release does not establish Google Analytics as active. Cloudflare processes network/security metadata as part of delivery and protection. If non-essential analytics or tracking requiring consent is introduced, CertaMaris will update its Cookie and Tracking Notice and implement required preference controls before activation.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

12. AI-Assisted Features

When enabled, AI-assisted workflows follow classification ceilings. AWS Bedrock is the primary approved enterprise route and Azure OpenAI is the approved fallback subject to safeguards. RESTRICTED data must not leave CertaMaris-controlled processing. CONFIDENTIAL data may use only approved enterprise routes with required safeguards and human review. Client-facing or compliance-influencing AI outputs require human review. Customer Content is not intentionally made available for generalized third-party model training without express written customer agreement.

13. Children

The Services are business-to-business and are not directed to children. Authorized Users must be at least 18 years old.

14. Changes and Contact

Effective 23 August 2026. Privacy requests: <https://certamaris.com/contact?intent=privacy>. Security matters: security@certamaris.com. Procurement: <https://certamaris.com/contact?intent=procurement>. CertaMaris will version and date material policy changes.

Provides the baseline B2B contractual terms for CertaMaris software subscriptions, professional services, authorized users, customer data, confidentiality, risk allocation and termination.

EFFECTIVE

23 August 2026

CLASSIFICATION

PUBLIC CONTRACT TERMS

LEGAL STATUS

Purpose, Scope and Controlled Use

B2B terms governing access to and use of the CertaMaris platform and services.

This is the controlled v1.0 CertaMaris public legal document. It is based on verified CertaMaris product, security, provider and operating facts available for this release. Customer-specific contracting-entity and execution particulars are intentionally handled in Order Forms or signature blocks rather than invented in a public notice.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Contract Structure

These Business Terms govern negotiated B2B access when incorporated into an Order Form. The Order Form identifies the customer, CertaMaris contracting entity, subscription scope, fees, term and negotiated deviations. Order Form terms control for transaction-specific matters; the DPA controls personal-data processing; a signed SLA controls service-level matters.

2. Authorized Users and License

CertaMaris grants a limited, non-exclusive, non-transferable, non-sublicensable right during the subscription term for authorized business users to access and use the Services within purchased organization, fleet, vessel, facility, module and user scope. No consumer license, source-code license or ownership right is granted.

3. Customer Responsibilities

Customer is responsible for lawful Customer Content, accurate scope/evidence, user authorization, credentials/endpoints, customer-controlled integrations, implementation of corrective actions and operational decisions. CertaMaris does not replace class, flag, port-state, legal, engineering, vessel navigation, emergency-response or other competent authority.

4. Acceptable Use

Customer must follow the Acceptable Use Policy and must not facilitate unauthorized access, malware, unlawful intrusion, abusive scanning, credential sharing, bypass of tenant isolation or security controls, unsafe automation, infringing use, or use as the sole basis for life-safety/navigation/machinery-control decisions.

5. Customer Data Ownership

Customer owns Customer Content. CertaMaris receives only the processing rights reasonably necessary to provide, secure and support the Services, comply with documented instructions and law, and create non-identifying operational improvements that do not disclose Customer Confidential Information.

6. CertaMaris IP

CertaMaris retains its platform, source code, APIs, documentation, control mappings, methodology, templates, Cyber Resilience Twin framework, generalized know-how and improvements. Feedback may be used without identifying the customer or disclosing Customer Confidential Information.

7. Confidentiality

Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Customer cyber plans, vulnerability findings, inventories, network-zone maps, remote-access pathways and security posture are expressly treated as Customer Confidential Information. CertaMaris non-public architecture, security materials, methodology and commercial terms are CertaMaris Confidential Information.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

8. Security and DPA

CertaMaris maintains reasonable safeguards as described in the Security Addendum/Trust materials and processes Customer Personal Data under the DPA. No SOC 2/ISO certification, universal MFA/SSO, or public RTO/RPO guarantee is incorporated unless separately stated in a signed document.

9. AI and Third-Party Services

AI functionality, when enabled, follows CertaMaris's classification policy using AWS Bedrock as primary and Azure OpenAI as fallback. RESTRICTED data is not sent to external AI. Customer remains responsible for reviewing AI-assisted outputs. Third-party integrations are enabled only within contracted implementation scope.

10. Fees, Taxes and Payment

Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Billing frequency and fees are in the Order Form. Customer pays applicable transaction taxes except taxes on CertaMaris net income, subject to valid exemption documentation.

11. Support and Availability

No public uptime or service-credit guarantee applies unless a signed Order Form or SLA expressly provides one. CertaMaris will use commercially reasonable efforts to operate the Services reliably.

12. Warranties and Disclaimers

CertaMaris will perform paid Services professionally and substantially in accordance with Documentation. Otherwise, to the maximum extent permitted by law, Services are provided as available without implied warranties. CertaMaris does not guarantee every cyber issue will be found, every recommendation will be correct for the customer's operational environment, or that use will result in an audit, inspection, class or regulatory pass.

13. Indemnification

CertaMaris provides a standard U.S. IP infringement defense for authorized paid use, subject to control-of-defense and customary exclusions. Customer provides a defense for third-party claims arising from Customer Content, unlawful/unauthorized use, or lack of required rights. The Order Form may modify indemnities.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

14. Limitation of Liability

Except for Excluded Claims, each party's aggregate liability is capped at the fees paid or payable under the affected Order Form during the 12 months preceding the event giving rise to the claim. Liability for breach of confidentiality, data-protection/security obligations, and CertaMaris IP indemnification is capped at two times the general liability cap. Payment obligations, fraud, willful misconduct, and liability that cannot lawfully be limited are not subject to the contractual caps to the extent stated in the Agreement. Neither party is liable for indirect, special, incidental, consequential, exemplary or punitive damages or lost profits/revenue/goodwill, except third-party amounts payable under an express indemnity where applicable.

15. Term, Renewal and Termination

Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Material breach cure: 30 days after written notice for a material breach capable of cure. Payment cure: 10 days after written notice for nonpayment of undisputed amounts. Suspension is permitted for material security threats, unlawful use, Acceptable Use violations or qualifying nonpayment, using reasonable efforts to limit impact.

16. Export and Deletion

Customer may export during the term. Standard post-termination export-request window: 30 days after termination or expiration, unless the Order Form states otherwise. unless the Order Form says otherwise. Production data is then removed or rendered inaccessible through the offboarding process, subject to legal holds and required records; backup copies age out through managed rotation.

17. Compliance

Each party complies with laws applicable to its performance, including relevant export controls, sanctions and anti-corruption obligations. CertaMaris does not provide legal advice or issue regulatory/class approval.

18. Governing Law, Venue and Notices

The applicable Order Form controls governing law and venue. If it is silent, the Agreement is governed by the law of the U.S. state in which the CertaMaris contracting entity identified in that Order Form is organized, without regard to conflicts rules, and exclusive venue lies in the state and federal courts located in that jurisdiction. Formal customer-specific notice details are stated in the Order Form. Procurement/legal-document requests can be routed through <https://certamaris.com/contact?intent=procurement> for triage.

19. General

Assignment, force majeure, waiver, severability, entire agreement, survival, electronic signatures and order of precedence operate as stated in the Agreement. Customer publicity is opt-in only unless affirmatively authorized in writing.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Scope

This notice applies to CertaMaris browser-based websites and applications. It should be read with the Privacy Policy.

2. Necessary Technologies

CertaMaris uses browser technologies necessary for secure sessions, authentication, service continuity, fraud/abuse prevention, rate limiting and user-requested functionality. Blocking them can prevent sign-in or core service behavior.

3. Cloudflare Delivery and Security

Cloudflare supports DNS, edge delivery, traffic protection and related security functions. In performing those functions it can process IP addresses, request metadata and security telemetry. Cloudflare is not used here as a basis to claim advertising tracking.

4. Analytics

No Google Analytics dependency was verified in the current public-site source used for this release. If CertaMaris enables Cloudflare Web Analytics or another non-essential analytics product, the site and this notice must be updated together, and any required consent/preference mechanism must be enabled before collection begins.

5. Advertising and Cross-Context Tracking

CertaMaris does not use Customer Content for advertising and this baseline does not authorize advertising cookies, sale of personal data or cross-context behavioral advertising.

6. Preferences and GPC

Necessary technologies operate without an optional preference. If future processing creates a legal obligation for consent, opt-out or Global Privacy Control recognition, CertaMaris will implement the required technical behavior before that processing is activated.

7. Contact and Changes

Effective 23 August 2026. Questions: <https://certamaris.com/contact?intent=privacy>. Material technology changes will be versioned in this notice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Authorized Use

Use CertaMaris only for legitimate contracted business purposes related to maritime cybersecurity, compliance, assurance, risk intelligence and operational resilience.

2. Credentials and Access

Use individual authorized identities; protect credentials; respect organization/fleet/vessel scope; promptly report suspected compromise; do not bypass tenant isolation, rate limits, authentication or security controls.

3. Prohibited Technical Conduct

Do not introduce malware, exploit or scan CertaMaris/another customer without written authorization, disrupt service, abuse automation, scrape at harmful rates, reverse engineer beyond non-waivable legal rights, or facilitate unauthorized access to vessels, facilities, systems or networks.

4. Prohibited Data and Content

Do not submit unlawfully obtained, infringing or malicious content; credentials/private keys unless specifically required and approved; or data for which the customer lacks rights/lawful basis. RESTRICTED data must follow CertaMaris classification rules and cannot be sent to external AI.

5. Safety-Critical Boundary

CertaMaris is not a navigation, machinery-control, emergency-communications or other safety-critical control system. Do not use outputs as the sole basis for life-safety, navigation, machinery-control, emergency-response or active incident-containment decisions.

6. AI and Automation

AI-assisted outputs require appropriate human review. Do not attempt to override classification ceilings, enable external web tools for confidential workflows, or submit RESTRICTED data to external AI.

7. Enforcement

CertaMaris may investigate suspected violations, preserve relevant evidence and suspend affected users/integrations/functions when reasonably necessary to protect the Services, customers or third parties, using reasonable efforts to limit scope and provide notice when practicable.

8. Report a Concern

Security and abuse reports: security@certamaris.com or <https://certamaris.com/contact?intent=security>. Effective 23 August 2026.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Commitment

CertaMaris aims to make its public website and customer-facing experiences usable by people with disabilities and treats accessibility as part of product quality.

2. Target Standard

CertaMaris targets WCAG 2.2 Level AA as a design goal. This statement does not claim formal third-party conformance certification or that every page is free of accessibility barriers.

3. Current Practices

The public website uses semantic structure, keyboard-oriented navigation patterns, visible focus treatment, labeled forms, reduced-motion considerations and contrast-minded status presentation. Accessibility remains subject to ongoing QA as content and components change.

4. Known Limitations and Third Parties

Some PDFs, third-party services, complex data visualizations or legacy content can present limitations. Where practicable, CertaMaris will provide an alternative format or accessible route upon request.

5. Feedback and Assistance

Report an accessibility barrier or request an alternative format at accessibility@certamaris.com. Include the page or document, the problem encountered and any preferred format. Effective 23 August 2026.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Purpose

This list identifies external providers that may process Customer Personal Data for the CertaMaris service and distinguishes internal/self-hosted components. It should be read with the DPA and Privacy Policy.

2. Current Subprocessors

The current controlled list includes Neon, Railway, Cloudflare and Resend. AWS Bedrock and Azure OpenAI are conditional approved enterprise AI routes and process data only when an enabled workflow permits external AI. Stripe is not listed as active because payment processing is not represented as integrated in this release.

3. Internal Hosted Components

Dependency-Track, ClamAV and Redis-on-Railway are described as CertaMaris-operated or Railway-hosted components in the current deployment inventory; they are not separately treated as external legal subprocessors unless the procurement model changes.

4. Change Notice

CertaMaris will provide 30 days advance notice when reasonably practicable before a new or replacement subprocessor materially begins processing Customer Personal Data when reasonably practicable. Customer may object within 15 days after notice, based on reasonable data-protection grounds on reasonable data-protection grounds.

5. Transfer Safeguards

Each provider relationship is subject to appropriate contractual and transfer safeguards based on the data flow and applicable law. CertaMaris may use SCCs, the UK Addendum/other UK mechanism, Swiss adaptations, adequacy or other lawful safeguards as applicable.

6. Contact

Enterprise procurement questions: <https://certamaris.com/contact?intent=procurement>. Privacy questions: <https://certamaris.com/contact?intent=privacy>. Effective 23 August 2026.

SUBPROCESSORS

Current Controlled Provider List

External processors used by the CertaMaris service; conditional AI routes are identified as conditional.

PROVIDER	PURPOSE	PROCESSING CONFIG	DATA CATEGORIES
Neon, LLC (Neon PostgreSQL)	Primary managed PostgreSQL database	US East production configuration	Customer data and account/organization records
Railway Corporation	Application hosting, deployment, runtime networking and managed Redis used for rate limiting	US West production configuration	Customer data, application traffic, operational logs, ephemeral rate-limit keys
Cloudflare, Inc.	DNS, edge delivery, CDN/security, Workers/R2 where configured, and traffic protection	Global edge; configured storage/processing locations depend on service	Traffic metadata, security telemetry, and objects/files when stored in Cloudflare services
Plus Five Five, Inc. d/b/a Resend	Transactional email delivery	United States account/service processing with provider-managed delivery infrastructure	Recipient name/email, message content, delivery status and technical metadata
Amazon Web Services, Inc. - conditional AI route	AWS Bedrock enterprise AI processing when an enabled workflow permits external AI	Approved enterprise region selected for the workload	Only minimized data permitted by the workflow classification; RESTRICTED data excluded
Microsoft Corporation - conditional AI fallback	Azure OpenAI fallback when approved and enabled	Approved Azure region selected for the workload	Only minimized data permitted by the workflow classification; RESTRICTED data excluded

COMPONENT BOUNDARY

Internal / Hosted Components

Components that are not separately listed as external legal subprocessors in this release.

COMPONENT	TREATMENT
Dependency-Track	Private SBOM and vulnerability-analysis component operated within the CertaMaris environment; not treated here as a separate external legal subprocessor unless procured from a third party.
ClamAV	Malware-scanning component used for uploaded files on a transient basis; not treated here as a separate external legal subprocessor unless procured from a third party.
Redis on Railway	Ephemeral rate-limiting component hosted within Railway; the legal infrastructure provider is Railway.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

LEGAL STATUS

Purpose, Scope and Controlled Use

Enterprise framework agreement for CertaMaris subscriptions and related services.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Definitions and Agreement Structure

The Agreement consists of the applicable signed Order Form, these terms or the MSA identified in the Order Form, the DPA, any signed SLA, SOW, security addendum and other document expressly incorporated by reference. CertaMaris uses negotiated B2B contracting rather than consumer self-service terms. In case of conflict, the negotiated Order Form controls for its transaction-specific terms, followed by the DPA for data-protection matters, any signed SLA for service-level matters, the governing MSA/Terms, and incorporated policies, unless a document expressly states a different priority.

2. Orders and Affiliates

Each Order Form is a separate transaction under the governing Agreement and binds the customer and CertaMaris contracting entity identified in that Order Form. A customer affiliate may purchase Services only through an Order Form accepted by CertaMaris; unless expressly stated otherwise, an affiliate does not acquire rights under another affiliate's Order Form. Transaction-specific subscriptions, fleet/vessel scope, term, fees and negotiated deviations are stated in the relevant Order Form.

3. Subscription Services

Subject to the Agreement and payment of applicable fees, CertaMaris provides the hosted subscription Services described in each Order Form for the stated term and scope. Access is limited to Authorized Users and the purchased organization, fleet, vessel, facility, module and usage scope. CertaMaris may improve the Services during the term provided it does not materially reduce the core functionality expressly purchased in the applicable Order Form.

4. Professional Services

Professional services such as implementation, advisory, assessment, training or configuration work are governed by the applicable SOW or Order Form. That document identifies scope, assumptions, dependencies, deliverables, fees, schedule and any acceptance procedure. Material scope changes require a written change order or other authorized amendment; Customer delays or missing dependencies may require schedule and fee adjustment.

5. Customer Responsibilities

Customer will use the Services lawfully and in accordance with the Acceptable Use Policy; provide accurate scope, evidence and instructions; maintain rights and lawful bases for Customer Content; safeguard its own identities, endpoints, vessel/facility systems and integrations; review findings and AI-assisted outputs before reliance; and independently decide and validate corrective actions. CertaMaris supports assurance workflows but does not replace class, flag, port-state, legal, engineering, navigation, emergency-response or operational-safety authority.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

6. Fees and Taxes

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts. to the extent permitted by the Agreement.

7. Customer Data and Data Protection

This section confirms ownership, processing rights, DPA and data-return/deletion obligations. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Security

The applicable agreement references Security Addendum and incident cooperation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

10. Intellectual Property

CertaMaris and its licensors retain all right, title and interest in the Services, software, APIs, Documentation, templates, user-interface designs, control mappings, methodology, Cyber Resilience Twin framework, generalized know-how, and improvements that do not identify or disclose Customer Content. Customer receives only the rights expressly granted in the Agreement. Feedback may be used without restriction provided CertaMaris does not identify Customer or disclose Customer Confidential Information.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

11. Third-Party Services

Allocate responsibility for integrations and externally controlled services. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

12. Representations and Warranties

CertaMaris warrants that it will perform the paid Services in a professional and workmanlike manner and substantially in accordance with applicable Documentation during the term. Except for express warranties in the Agreement, the Services and outputs are provided on an 'as is' and 'as available' basis to the maximum extent permitted by law. CertaMaris does not guarantee that use will be uninterrupted or error-free, that every vulnerability or compliance gap will be identified, or that Customer will pass an audit, class review, survey, inspection or regulatory assessment. Official legal, flag, class and regulatory requirements control over software guidance.

13. Indemnification

CertaMaris will defend Customer against a third-party claim that authorized use of the paid Services infringes a United States patent, copyright or trademark and will pay finally awarded damages or approved settlement amounts, subject to prompt notice, CertaMaris control of defense, cooperation, and standard exclusions for Customer Content, unauthorized modifications, combinations, instructions or continued use after notice. Customer will defend CertaMaris against third-party claims arising from Customer Content, unlawful or unauthorized use, or Customer's failure to obtain required rights. The Order Form may modify indemnity scope.

14. Limitation of Liability

Except for Excluded Claims, each party's aggregate liability is capped at the fees paid or payable under the affected Order Form during the 12 months preceding the event giving rise to the claim. Liability for breach of confidentiality, data-protection/security obligations, and CertaMaris IP indemnification is capped at two times the general liability cap. Payment obligations, fraud, willful misconduct, and liability that cannot lawfully be limited are not subject to the contractual caps to the extent stated in the Agreement. To the maximum extent permitted by law, neither party is liable for indirect, incidental, special, consequential, exemplary or punitive damages or lost profits, revenues, goodwill, business opportunity or anticipated savings, even if advised of the possibility, except to the extent an express indemnity requires payment of third-party amounts.

15. Term, Renewal and Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

16. Suspension

Permit proportionate suspension for security, unlawful use or nonpayment. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

17. Compliance

Each party will comply with laws applicable to its performance, including applicable export-control, sanctions, anti-bribery and anti-corruption requirements. Customer will not use the Services for prohibited end users, embargoed activity, unlawful intrusion or safety-critical control. CertaMaris is a workflow and assurance technology provider; it does not issue class, flag-state or regulatory approvals and does not provide legal advice.

18. Insurance

The applicable instrument states any required coverage or reference Insurance Schedule. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

19. Notices and Disputes

Operational notices may be sent through the Services or business email contacts. Formal notices of material breach, termination or legal process must use the notice details in the applicable Order Form or executed agreement and may also be routed through <https://certamaris.com/contact?intent=procurement> for triage. The applicable Order Form controls governing law and venue. If it is silent, the Agreement is governed by the law of the U.S. state in which the CertaMaris contracting entity identified in that Order Form is organized, without regard to conflicts rules, and exclusive venue lies in the state and federal courts located in that jurisdiction. The parties may agree to arbitration, jury waiver or another forum in the Order Form; no separate mandatory consumer arbitration regime is created by this baseline.

20. General

Assignment, force majeure, entire agreement, amendment, waiver, severability, counterparts. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Customer and Contract References

The applicable transaction document identifies customer, CertaMaris entity, governing MSA/Terms and effective date. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Subscription Scope

The applicable schedule lists modules, fleet/vessel/facility scope, users, environments and service tier. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Term and Renewal

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

4. Fees and Billing

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts. to the extent permitted by the Agreement.

5. Implementation and Dependencies

The applicable instrument states onboarding dates, customer prerequisites, integrations and assumptions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

6. Service Levels and Support

No public uptime or service-credit guarantee applies unless a signed Order Form or SLA expressly provides one. CertaMaris will use commercially reasonable efforts to operate the Services reliably. Support channels, severity targets, maintenance windows and any service credits are contractual only when stated in the applicable Order Form or SLA. Service levels exclude circumstances outside CertaMaris's reasonable control, customer systems or misuse, third-party outages not under CertaMaris control, planned maintenance, force majeure and preview/beta features unless the SLA states otherwise.

7. Security and Data Protection

CertaMaris will maintain reasonable safeguards appropriate to the nature and sensitivity of Customer Content. The current baseline includes tenant isolation, role/object-scoped access, authenticated access, TLS, provider-managed encryption at rest, controlled privileged access, audit/change history, operational logging, separated environments, secure development practices, vulnerability/dependency tooling, backups and incident response. MFA and SSO/SCIM are not represented as universally current. Formal SOC 2 or ISO 27001 certification is not claimed. Personal-data processing on Customer's behalf is governed by the DPA.

8. Special Terms

Record negotiated deviations expressly; avoid undocumented side terms. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Order of Precedence

The applicable instrument states precedence between Order Form and incorporated documents. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Project Overview

The applicable instrument states objective, background and governing agreement. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Scope of Services

This section describes included professional services and explicit exclusions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Deliverables

The applicable schedule lists reports, configurations, assessments, workshops or other outputs. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Milestones and Schedule

The applicable transaction documents set dates, dependencies and sequencing. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Customer Responsibilities

Customer will use the Services lawfully and in accordance with the Acceptable Use Policy; provide accurate scope, evidence and instructions; maintain rights and lawful bases for Customer Content; safeguard its own identities, endpoints, vessel/facility systems and integrations; review findings and AI-assisted outputs before reliance; and independently decide and validate corrective actions. CertaMaris supports assurance workflows but does not replace class, flag, port-state, legal, engineering, navigation, emergency-response or operational-safety authority.

6. CertaMaris Responsibilities

The applicable transaction document identifies project-management and delivery obligations. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Assumptions and Dependencies

The applicable instrument states assumptions that may change timeline or fees. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Fees and Expenses

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts, to the extent permitted by the Agreement.

9. Acceptance

The applicable agreement or schedule defines acceptance criteria, review window and deemed acceptance if used. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Change Control

Require signed Change Order for material scope/timeline/fee changes. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Security and Data Handling

The applicable instrument states environment access, evidence handling and return/deletion expectations. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

12. Project Closure

The applicable agreement or schedule defines completion, outstanding issues and handoff. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

13. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT PURPOSE / KEY MESSAGE

Provides the processor/controller contractual framework, security obligations, subprocessor controls, incident notification, audit rights, deletion and international-transfer schedules.

EFFECTIVE

Upon incorporation/execution with Customer

CLASSIFICATION

PUBLIC REUSABLE AGREEMENT

LEGAL STATUS

Purpose, Scope and Controlled Use

Enterprise DPA for customer personal data processed by CertaMaris.

This is the controlled v1.0 CertaMaris public legal document. It is based on verified CertaMaris product, security, provider and operating facts available for this release. Customer-specific contracting-entity and execution particulars are intentionally handled in Order Forms or signature blocks rather than invented in a public notice.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Parties, Scope and Roles

This reusable DPA forms part of the Agreement between the Customer identified in the applicable Order Form and the CertaMaris contracting entity identified there. For Customer Personal Data, Customer is controller and CertaMaris is processor, unless Customer is itself a processor, in which case CertaMaris acts as subprocessor. Customer-specific exporter/importer and signature particulars are completed at execution; they are not standing publication fields.

2. Documented Instructions

CertaMaris processes Customer Personal Data only on documented instructions in the Agreement, DPA, Order Form, lawful use of the Services, or additional written instructions accepted by CertaMaris, unless law requires otherwise. CertaMaris will inform Customer of a conflicting instruction when legally permitted.

3. Confidentiality and Personnel

Persons authorized to process Customer Personal Data are subject to confidentiality obligations and access restrictions appropriate to their role. CertaMaris limits access based on need and treats customer cyber posture and technical architecture as high-sensitivity confidential information.

4. Security Measures

CertaMaris maintains safeguards described in Schedule 2, including tenant isolation, role/object-scoped access, authenticated access, TLS, managed encryption at rest, controlled privileged access, audit/change history, logging, separated environments, secure development, vulnerability/dependency management, backups, incident response and controlled subprocessors. Universal MFA/SSO and formal SOC 2/ISO certification are not represented as current.

5. Security Incidents

CertaMaris will notify Customer without undue delay and, for a confirmed Security Incident affecting Customer Personal Data, no later than 48 hours after awareness. Notice may be phased and will include known incident nature, affected systems/data, likely consequences, containment/remediation and a coordination contact. CertaMaris will take reasonable containment, investigation and remediation steps and cooperate with legally required customer notifications.

6. Data Subject and Regulatory Assistance

CertaMaris will provide reasonable assistance with data-subject requests, DPIAs, prior consultation and regulatory inquiries relating to Customer Personal Data, taking into account the nature of processing. Customer remains responsible for determining its legal bases, notices and whether regulator/data-subject notifications are required.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Subprocessors

Customer generally authorizes the subprocessors in Schedule 3. CertaMaris imposes written data-protection obligations appropriate to their processing and provides 30 days advance notice when reasonably practicable. Customer has 15 days after notice, based on reasonable data-protection grounds to object on reasonable data-protection grounds. The parties will attempt reasonable resolution before terminating the affected processing or feature.

8. International Transfers

Where required, the 2021 EU SCCs are incorporated for the applicable transfer: Module 2 when Customer is controller and CertaMaris processor; Module 3 when Customer is processor and CertaMaris subprocessor. UK transfers use the UK Addendum or another valid mechanism, and Swiss transfers use required adaptations. Transaction-specific annex particulars are completed for the actual customer/transfer.

9. Audits

CertaMaris provides standard security/privacy materials, questionnaires and available evidence under appropriate confidentiality terms. Where law requires and standard materials are insufficient, Customer may request a reasonable audit coordinated to minimize disruption and protect other customers and security-sensitive information.

10. Return and Deletion

Customer may export during the term and ordinarily has 30 days after termination or expiration, unless the Order Form states otherwise. after termination to request a standard export. CertaMaris then removes or renders inaccessible Customer Personal Data from active production systems subject to law, legal hold and dispute preservation. Backup copies age out through managed rotation.

11. Government Requests

Unless prohibited by law, CertaMaris will notify Customer before disclosing Customer Personal Data in response to a binding government request, disclose only data legally required, and challenge overbroad or unlawful demands where reasonably appropriate.

12. Liability and Precedence

Liability under this DPA follows the liability framework in the Agreement unless law requires otherwise. If the DPA conflicts with the Agreement on processing of Customer Personal Data, the DPA controls; an applicable transfer mechanism controls to the extent legally required.

SCHEDULE

Technical and Organizational Measures

Current controls, planned capabilities and explicit non-claims.

CONTROL	STATUS	CURRENT STATEMENT
Tenant isolation	Current	Customer data is logically isolated at database and access-control layers by organization and related operational scope.
Role-based and object-scoped access	Current	Access is scoped by role and object such as organization, fleet or vessel.
Authenticated customer access	Current	The product application requires authenticated sign-in; the marketing website is separate from the authenticated app.
MFA	Planned / enterprise onboarding item	CertaMaris does not make a blanket public production-MFA claim. Options may be implemented by plan and onboarding scope.
SSO / SCIM	Planned enterprise capability	Not represented as universally current.
Encryption in transit	Current	Industry-standard TLS protects traffic in transit.
Encryption at rest	Current	Stored data uses managed encryption-at-rest capabilities of production hosting and database providers.
Privileged production access	Current	Limited to authorized operational personnel; support access is intended to be controlled and time-bounded.

SCHEDULE

Technical and Organizational Measures - Continued

Current controls, planned capabilities and explicit non-claims.

CONTROL	STATUS	CURRENT STATEMENT
Audit history and change trail	Current	Evidence, findings, plans and reviewer actions preserve version and review history rather than silently overwriting prior state.
Operational and access logging	Current	Application and infrastructure logs support operations, security review and incident investigation.
Secure development	Current	Changes use source control, review and separated environments before production.
Vulnerability/dependency management	Configurable/current engineering tooling	Private SBOM and vulnerability tooling is used; no public certification or vulnerability-free guarantee is made.
Environment separation	Current	Development, preview/staging and production are separated; production customer data is excluded from lower environments as a design rule.
Backups	Current	Managed database backups are part of the production model; no public RTO/RPO guarantee is made unless stated in a signed SLA.
Incident response	Current	An internal response process exists; customer notification follows contract/DPA terms.
Formal third-party certification	Not claimed	CertaMaris does not claim SOC 2 or ISO 27001 certification unless and until separately completed and specifically published.

TRANSFER SCHEDULE

International Transfer Framework

Standing mechanism; transaction-specific exporter/importer particulars are completed only when required.

1. EU SCC role selection

Module 2 when Customer is controller and CertaMaris is processor; Module 3 when Customer is processor and CertaMaris is subprocessor.

2. UK

Use the UK Addendum to the EU SCCs or another then-valid UK transfer mechanism where required.

3. Switzerland

Use required Swiss FDPA adaptations to the chosen mechanism where applicable.

4. Supplementary measures

Encryption, access minimization, tenant isolation, provider contractual commitments, region selection, and data-classification restrictions including no external AI for RESTRICTED data.

5. Transfer-risk assessment

Maintained as a controlled record for the actual transfer and reviewed when providers, jurisdictions or material technical measures change.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

LEGAL STATUS

Purpose, Scope and Controlled Use

Contractual security commitments for CertaMaris services and customer data.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Security Program Governance

The applicable instrument states policy ownership, risk management and review cadence. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Access Control

This section describes least privilege, privileged access, MFA, session controls and offboarding. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Encryption and Key Management

The applicable instrument states verified in-transit/at-rest encryption and key/secrets responsibilities. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Secure Development Lifecycle

This section describes code review, testing, dependency management and release controls. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Vulnerability Management

The applicable instrument states scanning, remediation prioritization and disclosure handling. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Logging and Monitoring

This section describes verified logs, alerting, observability and retention. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Backups and Resilience

The applicable instrument states backup frequency, retention, recovery objectives and restore testing only if verified. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Incident Response

The applicable agreement or schedule defines detection, containment, evidence, notification and post-incident review. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Personnel and Endpoint Security

The applicable instrument states screening/training/device controls only as actually implemented. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Subprocessor Security

The applicable instrument states diligence, contractual flow-down and monitoring. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Data Segregation and Deletion

This section describes tenant isolation, export, production deletion and backup expiration. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

12. Security Evidence

The applicable agreement or schedule defines questionnaires, reports, penetration summaries or certifications actually available. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

13. Exceptions and Changes

Preserve right to improve controls without materially reducing overall protection. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Covered Services

The applicable transaction document identifies production services and excluded preview/beta features. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Availability Commitment

No public uptime or service-credit guarantee applies unless a signed Order Form or SLA expressly provides one. CertaMaris will use commercially reasonable efforts to operate the Services reliably. Support channels, severity targets, maintenance windows and any service credits are contractual only when stated in the applicable Order Form or SLA. Service levels exclude circumstances outside CertaMaris's reasonable control, customer systems or misuse, third-party outages not under CertaMaris control, planned maintenance, force majeure and preview/beta features unless the SLA states otherwise.

3. Availability Calculation

No public uptime or service-credit guarantee applies unless a signed Order Form or SLA expressly provides one. CertaMaris will use commercially reasonable efforts to operate the Services reliably. Support channels, severity targets, maintenance windows and any service credits are contractual only when stated in the applicable Order Form or SLA. Service levels exclude circumstances outside CertaMaris's reasonable control, customer systems or misuse, third-party outages not under CertaMaris control, planned maintenance, force majeure and preview/beta features unless the SLA states otherwise.

4. Exclusions

Planned maintenance, force majeure, customer systems, third-party failures and unauthorized use as negotiated. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Maintenance Windows

The applicable instrument states notification and emergency maintenance handling. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Support Channels and Hours

The applicable agreement or schedule defines support channel, hours and business-day/24x7 coverage. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Severity Levels

The applicable agreement or schedule defines SEV-1 through SEV-4 criteria. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Initial Response Targets

The applicable instrument states response targets by severity. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Service Credits

The applicable agreement or schedule defines tiered credits, caps and eligibility. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Credit Claim Process

The applicable transaction documents set claim window, required evidence and validation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Sole Remedy / Exceptions

The applicable instrument states whether credits are sole remedy for SLA failure, subject to negotiated exceptions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

12. Reporting and Review

The applicable agreement or schedule defines availability reports and material recurring issue review. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

DOCUMENT CONTROL

Execution, Publication and Revision Record

LEGAL STATUS

Purpose, Scope and Controlled Use

Two-way confidentiality agreement for business, technical and commercial discussions.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Purpose and Parties

The applicable transaction document identifies parties and permitted evaluation/business purpose. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Confidential Information

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

3. Exclusions

Public, previously known, independently developed and properly third-party-sourced information. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Use and Protection

Limit use to purpose and require reasonable protection / need-to-know access. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Permitted Recipients

Employees, contractors, advisors and affiliates subject to confidentiality. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Compelled Disclosure

Require notice where legally permitted and minimum necessary disclosure. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Return or Destruction

Provide return/destruction on request subject to backups/legal holds. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. No License / No Obligation

Clarify no IP license and no obligation to proceed. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Term and Survival

The applicable instrument states agreement term and confidentiality survival / trade-secret treatment. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Remedies

This section addresses injunctive relief and other available remedies. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Governing Law

Operational notices may be sent through the Services or business email contacts. Formal notices of material breach, termination or legal process must use the notice details in the applicable Order Form or executed agreement and may also be routed through <https://certamaris.com/contact?intent=procurement> for triage. The applicable Order Form controls governing law and venue. If it is silent, the Agreement is governed by the law of the U.S. state in which the CertaMaris contracting entity identified in that Order Form is organized, without regard to conflicts rules, and exclusive venue lies in the state and federal courts located in that jurisdiction. The parties may agree to arbitration, jury waiver or another forum in the Order Form; no separate mandatory consumer arbitration regime is created by this baseline.

12. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

LEGAL STATUS

Purpose, Scope and Controlled Use

One-way confidentiality agreement for CertaMaris disclosure or recipient obligations.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Disclosing and Receiving Party

The applicable transaction document identifies roles and purpose. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Confidential Information

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

3. Recipient Obligations

The applicable transaction documents set purpose limitation, protection, need-to-know and copying restrictions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Exclusions

Standard confidentiality exclusions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Compelled Disclosure

Minimum disclosure and notice where permitted. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Return or Destruction

Return/destruction with legal-hold and backup exceptions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Ownership and No License

Reserve all rights. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Term and Survival

The applicable instrument states duration. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Remedies

This section addresses equitable relief. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Governing Law and Signatures

Operational notices may be sent through the Services or business email contacts. Formal notices of material breach, termination or legal process must use the notice details in the applicable Order Form or executed agreement and may also be routed through <https://certamaris.com/contact?intent=procurement> for triage. The applicable Order Form controls governing law and venue. If it is silent, the Agreement is governed by the law of the U.S. state in which the CertaMaris contracting entity identified in that Order Form is organized, without regard to conflicts rules, and exclusive venue lies in the state and federal courts located in that jurisdiction. The parties may agree to arbitration, jury waiver or another forum in the Order Form; no separate mandatory consumer arbitration regime is created by this baseline.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Evaluation Scope

The applicable transaction document identifies modules, users, vessels/assets, data and environment. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Evaluation Term

The applicable transaction documents set start/end and no automatic production continuation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Permitted Use

Limit to internal evaluation and prohibit production reliance unless agreed. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Customer Data

The applicable instrument states ownership, permitted processing and deletion/export at end. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

6. Security

The applicable agreement references baseline security and customer responsibilities. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Fees / No-Charge Evaluation

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts. to the extent permitted by the Agreement.

8. Feedback

The applicable agreement or schedule defines voluntary feedback rights. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. No Production SLA / Warranty

The applicable instrument states evaluation limitations and appropriate disclaimers. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Liability

Except for Excluded Claims, each party's aggregate liability is capped at the fees paid or payable under the affected Order Form during the 12 months preceding the event giving rise to the claim. Liability for breach of confidentiality, data-protection/security obligations, and CertaMaris IP indemnification is capped at two times the general liability cap. Payment obligations, fraud, willful misconduct, and liability that cannot lawfully be limited are not subject to the contractual caps to the extent stated in the Agreement. To the maximum extent permitted by law, neither party is liable for indirect, incidental, special, consequential, exemplary or punitive damages or lost profits, revenues, goodwill, business opportunity or anticipated savings, even if advised of the possibility, except to the extent an express indemnity requires payment of third-party amounts.

11. Conversion

The applicable instrument states that production use requires executed commercial agreement. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

12. Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

13. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Preview Feature Definition

The applicable transaction document identifies eligible features and designation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Optional Participation

The applicable instrument states opt-in or separately authorized participation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Permitted Data

The applicable agreement or schedule defines allowed/prohibited data classifications. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Feature Changes and Discontinuation

Reserve right to modify or discontinue preview features. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Support and Availability

No public uptime or service-credit guarantee applies unless a signed Order Form or SLA expressly provides one. CertaMaris will use commercially reasonable efforts to operate the Services reliably. Support channels, severity targets, maintenance windows and any service credits are contractual only when stated in the applicable Order Form or SLA. Service levels exclude circumstances outside CertaMaris's reasonable control, customer systems or misuse, third-party outages not under CertaMaris control, planned maintenance, force majeure and preview/beta features unless the SLA states otherwise.

6. AI / Automated Features

The applicable instrument states provider, retention, training and human-review restrictions if applicable. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Feedback and Evaluation Data

The applicable agreement or schedule defines use of feedback and telemetry. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

9. Warranty and Liability

The applicable instrument states preview-specific limitations subject to governing agreement. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Termination / Exit

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Services and SOWs

Require written SOWs or orders. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Project Governance

The applicable agreement or schedule defines project contacts, decisions and dependencies. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Customer Cooperation

The applicable transaction documents set access, timely information and approvals. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Fees, Expenses and Taxes

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts. to the extent permitted by the Agreement.

5. Deliverables and Acceptance

The applicable agreement or schedule defines deliverables, review and rejection process. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Change Control

Require signed changes. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Intellectual Property

CertaMaris and its licensors retain all right, title and interest in the Services, software, APIs, Documentation, templates, user-interface designs, control mappings, methodology, Cyber Resilience Twin framework, generalized know-how, and improvements that do not identify or disclose Customer Content. Customer receives only the rights expressly granted in the Agreement. Feedback may be used without restriction provided CertaMaris does not identify Customer or disclose Customer Confidential Information.

8. Customer Materials

License customer materials only as needed. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Confidentiality and Data Protection

The applicable agreement references NDA/DPA as applicable. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Warranty

The applicable instrument states professional and workmanlike performance standard. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Liability and Indemnity

Tie to governing terms or state standalone allocation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

12. Term and Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

13. General Terms

Neither party may assign the Agreement except as permitted in the Order Form or in connection with a merger, reorganization or sale of substantially all relevant assets, subject to successor assumption. Neither party is liable for delay caused by events beyond reasonable control except payment obligations. Waiver must be explicit; invalid provisions are severed to the minimum extent necessary; headings do not control interpretation; electronic signatures and counterparts are permitted; and the complete Agreement supersedes prior proposals on its subject matter.

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Original Agreement

The applicable transaction document identifies title, parties, effective date and agreement ID. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Amendment Effective Date

The applicable transaction documents set effective date. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Amended Provisions

Quote or precisely identify sections being replaced, added or deleted. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Commercial / Scope Changes

The applicable instrument states changed fees, term, products, vessels/assets or deliverables. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. No Other Changes

This section confirms all other terms remain in effect. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Order of Precedence

The applicable instrument states amendment controls only to extent of conflict. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Counterparts and E-Signature

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

8. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Existing Agreement Reference

The applicable transaction document identifies MSA/Terms and original Order Form. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Renewal / Expansion Scope

The applicable schedule lists added/renewed products, vessels/assets and services. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. New Term

The applicable instrument states renewal/expansion start and end dates. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Fees and Billing

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts. to the extent permitted by the Agreement.

5. Implementation / Migration

The applicable instrument states any new onboarding or configuration. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Special Terms

Capture only approved deviations. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Order of Precedence

This section confirms governing agreement remains in force. TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Agreement and Customer

The applicable transaction document identifies agreement and customer. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Termination / Expiration Date

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

3. Export Provided

Each party will comply with laws applicable to its performance, including applicable export-control, sanctions, anti-bribery and anti-corruption requirements. Customer will not use the Services for prohibited end users, embargoed activity, unlawful intrusion or safety-critical control. CertaMaris is a workflow and assurance technology provider; it does not issue class, flag-state or regulatory approvals and does not provide legal advice.

4. Production Access Disabled

Record user/service access closure. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Production Data Deletion

Record systems, deletion date and verification method. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Backup Expiration

The applicable instrument states backup rotation/expiration date or schedule. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Legal / Financial Retention

The applicable transaction document identifies records retained under law, contract, dispute or legal hold. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Subprocessor Offboarding

During the term, Customer may use available product export functions or a mutually agreed format. After termination or expiration, CertaMaris will provide a 30 days after termination or expiration, unless the Order Form states otherwise. standard export-request window unless the Order Form states otherwise and undisputed fees are paid. CertaMaris will then delete or render inaccessible Customer Content from active production systems in accordance with its offboarding process, subject to legal holds, dispute preservation and required records. Backup copies expire through provider-managed secure rotation rather than guaranteed immediate item-level deletion.

9. Certification

Responsible owner certifies completion based on evidence. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Customer Acknowledgment

Optional acknowledgment without waiver of rights. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Notice Header

The applicable transaction document identifies incident reference, customer, notice date and contractual notice basis. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. What Happened

The applicable instrument states confirmed facts, discovery/awareness times and affected service. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Data / Systems Affected

The applicable instrument states known data categories, systems, tenants and approximate scope. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Containment and Remediation

This section describes actions taken and current status. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Customer Actions

The applicable instrument states recommended steps, credential changes or monitoring. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Regulatory / Third-Party Coordination

The applicable instrument states only confirmed notifications or required coordination. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Ongoing Investigation

Explain that information may change as investigation proceeds. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Contact and Update Cadence

Provide incident contact and next-update timing. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Privilege / Reservation Language

Use only if approved by legal counsel/incident lead. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Request Acknowledgment

This section confirms receipt date and request category. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Identity / Authority Verification

This corporate template is designed to record authority without inventing CertaMaris's entity type, formation state, board/member structure or current signatories. The executing version must identify the actual legal entity and governing authority and must comply with its formation documents and applicable law. The resolution may authorize identified persons or roles within stated transaction/risk limits while reserving equity, financing, M&A, dissolution and other legally reserved matters.

3. Controller / Processor Routing

Determine whether CertaMaris responds directly or forwards to customer controller. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Scope Clarification

Clarify overly broad or ambiguous requests. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Response Deadline

The applicable instrument states deadline under applicable law and any permitted extension. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Fulfillment Response

Provide access/correction/deletion/portability outcome. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Denial / Exception

The applicable instrument states lawful basis for denial or limitation and appeal/complaint rights where required. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Security of Delivery

Use secure response channel for sensitive records. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Recordkeeping

Record request, decision, response and evidence. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

LEGAL STATUS

Purpose, Scope and Controlled Use

CertaMaris agreement for third-party SaaS, consulting, hosting or professional vendors.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Services and Orders

The applicable agreement or schedule defines services, specifications and order process. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Performance and Personnel

The applicable instrument states standards, staffing and subcontractor rules. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Fees, Invoices and Taxes

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts. to the extent permitted by the Agreement.

4. CertaMaris Materials and Access

Limit access/use of CertaMaris systems and data. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

6. Security and Privacy

Incorporate Vendor DPA/Security Addendum where applicable. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

7. Intellectual Property

CertaMaris and its licensors retain all right, title and interest in the Services, software, APIs, Documentation, templates, user-interface designs, control mappings, methodology, Cyber Resilience Twin framework, generalized know-how, and improvements that do not identify or disclose Customer Content. Customer receives only the rights expressly granted in the Agreement. Feedback may be used without restriction provided CertaMaris does not identify Customer or disclose Customer Confidential Information.

8. Compliance

Each party will comply with laws applicable to its performance, including applicable export-control, sanctions, anti-bribery and anti-corruption requirements. Customer will not use the Services for prohibited end users, embargoed activity, unlawful intrusion or safety-critical control. CertaMaris is a workflow and assurance technology provider; it does not issue class, flag-state or regulatory approvals and does not provide legal advice.

9. Warranties

CertaMaris warrants that it will perform the paid Services in a professional and workmanlike manner and substantially in accordance with applicable Documentation during the term. Except for express warranties in the Agreement, the Services and outputs are provided on an 'as is' and 'as available' basis to the maximum extent permitted by law. CertaMaris does not guarantee that use will be uninterrupted or error-free, that every vulnerability or compliance gap will be identified, or that Customer will pass an audit, class review, survey, inspection or regulatory assessment. Official legal, flag, class and regulatory requirements control over software guidance.

10. Indemnification

CertaMaris will defend Customer against a third-party claim that authorized use of the paid Services infringes a United States patent, copyright or trademark and will pay finally awarded damages or approved settlement amounts, subject to prompt notice, CertaMaris control of defense, cooperation, and standard exclusions for Customer Content, unauthorized modifications, combinations, instructions or continued use after notice. Customer will defend CertaMaris against third-party claims arising from Customer Content, unlawful or unauthorized use, or Customer's failure to obtain required rights. The Order Form may modify indemnity scope.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

11. Liability

Except for Excluded Claims, each party's aggregate liability is capped at the fees paid or payable under the affected Order Form during the 12 months preceding the event giving rise to the claim. Liability for breach of confidentiality, data-protection/security obligations, and CertaMaris IP indemnification is capped at two times the general liability cap. Payment obligations, fraud, willful misconduct, and liability that cannot lawfully be limited are not subject to the contractual caps to the extent stated in the Agreement. To the maximum extent permitted by law, neither party is liable for indirect, incidental, special, consequential, exemplary or punitive damages or lost profits, revenues, goodwill, business opportunity or anticipated savings, even if advised of the possibility, except to the extent an express indemnity requires payment of third-party amounts.

12. Insurance

Required coverage where material. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

13. Audit and Records

Access to compliance evidence and records. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

14. Term and Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

15. Data Return / Deletion

Require return/deletion and certification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

16. General

Assignment, publicity, notices, law and venue. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

LEGAL STATUS

Purpose, Scope and Controlled Use

Processor obligations imposed on vendors processing personal data for CertaMaris.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Roles and Instructions

For Customer Personal Data, Customer is controller and CertaMaris is processor, unless Customer itself acts as processor for another controller, in which case CertaMaris acts as subprocessor. CertaMaris may independently process limited account, security, billing and business-contact data as controller for service administration, security, legal compliance and B2B relationship management.

2. Purpose Limitation

Prohibit selling, unrelated use and impermissible combination. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

4. Security Measures

CertaMaris will maintain reasonable safeguards appropriate to the nature and sensitivity of Customer Content. The current baseline includes tenant isolation, role/object-scoped access, authenticated access, TLS, provider-managed encryption at rest, controlled privileged access, audit/change history, operational logging, separated environments, secure development practices, vulnerability/dependency tooling, backups and incident response. MFA and SSO/SCIM are not represented as universally current. Formal SOC 2 or ISO 27001 certification is not claimed. Personal-data processing on Customer's behalf is governed by the DPA.

5. Incident Notice

The applicable transaction documents set prompt vendor-to-CertaMaris incident notification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

6. Data Subject / Regulatory Assistance

Taking into account the nature of processing, CertaMaris will provide reasonable assistance with valid data-subject requests, data-protection impact assessments, regulatory inquiries and legally required consultations relating to Customer Personal Data. If CertaMaris receives a request concerning Customer Personal Data, it will generally redirect or forward it to Customer and will not substantively respond except on Customer's documented instruction or as required by law.

7. Subprocessors

Customer generally authorizes the subprocessors listed in CertaMaris's controlled Subprocessor List. CertaMaris will impose written data-protection obligations appropriate to each provider's processing and remains responsible to the extent required by applicable law. CertaMaris will provide 30 days advance notice when reasonably practicable and Customer has 15 days after notice, based on reasonable data-protection grounds to raise a reasonable data-protection objection.

8. International Transfers

CertaMaris and its providers may process data in the United States and other locations needed to provide the Services. Where a restricted transfer requires safeguards, the parties will use an available lawful mechanism, including the European Commission Standard Contractual Clauses (Module 2 for controller-to-processor and Module 3 where the customer is itself a processor, as applicable), the UK Addendum or other valid UK mechanism, and Swiss adaptations where required. Transfer annex particulars remain customer- and transfer-specific and are completed when the relevant mechanism applies.

9. Return / Deletion

Require deletion/return at termination and certification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Audit / Evidence

Require security/privacy evidence and risk-based audit rights. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Government Requests

Unless prohibited by law, CertaMaris will notify Customer of a legally binding government demand for Customer Personal Data before disclosure, challenge overbroad or unlawful demands where reasonably appropriate, and disclose only data legally required. CertaMaris may publish or provide additional transparency information as its program matures.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

12. Precedence and Survival

Ensure DPA controls privacy conflicts and survives as needed. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TRANSFER SCHEDULE

International Transfer Framework

Standing mechanism; transaction-specific exporter/importer particulars are completed only when required.

1. EU SCC role selection

Module 2 when Customer is controller and CertaMaris is processor; Module 3 when Customer is processor and CertaMaris is subprocessor.

2. UK

Use the UK Addendum to the EU SCCs or another then-valid UK transfer mechanism where required.

3. Switzerland

Use required Swiss FDPA adaptations to the chosen mechanism where applicable.

4. Supplementary measures

Encryption, access minimization, tenant isolation, provider contractual commitments, region selection, and data-classification restrictions including no external AI for RESTRICTED data.

5. Transfer-risk assessment

Maintained as a controlled record for the actual transfer and reviewed when providers, jurisdictions or material technical measures change.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Security Governance

Require documented security program and accountable owner. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Access and Authentication

Least privilege, MFA, privileged access and timely offboarding. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Encryption

Approved encryption for data in transit and at rest. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Endpoint and Network Security

Device hardening, patching and anti-malware as appropriate. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Secure Development

SDLC requirements for vendor software/integrations. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Vulnerability Management

Scanning, remediation and critical vulnerability notification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Logging and Monitoring

Appropriate logs, alerting and retention. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Incident Response

Immediate containment and contractual notification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Business Continuity

Backups, recovery and continuity for critical vendors. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Subcontractors

Equivalent security obligations and approval. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Evidence and Audit

Questionnaires, reports, certifications and remediation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

12. Offboarding

During the term, Customer may use available product export functions or a mutually agreed format. After termination or expiration, CertaMaris will provide a 30 days after termination or expiration, unless the Order Form states otherwise. standard export-request window unless the Order Form states otherwise and undisputed fees are paid. CertaMaris will then delete or render inaccessible Customer Content from active production systems in accordance with its offboarding process, subject to legal holds, dispute preservation and required records. Backup copies expire through provider-managed secure rotation rather than guaranteed immediate item-level deletion.

SCHEDULE

Technical and Organizational Measures

Current controls, planned capabilities and explicit non-claims.

CONTROL	STATUS	CURRENT STATEMENT
Tenant isolation	Current	Customer data is logically isolated at database and access-control layers by organization and related operational scope.
Role-based and object-scoped access	Current	Access is scoped by role and object such as organization, fleet or vessel.
Authenticated customer access	Current	The product application requires authenticated sign-in; the marketing website is separate from the authenticated app.
MFA	Planned / enterprise onboarding item	CertaMaris does not make a blanket public production-MFA claim. Options may be implemented by plan and onboarding scope.
SSO / SCIM	Planned enterprise capability	Not represented as universally current.
Encryption in transit	Current	Industry-standard TLS protects traffic in transit.
Encryption at rest	Current	Stored data uses managed encryption-at-rest capabilities of production hosting and database providers.
Privileged production access	Current	Limited to authorized operational personnel; support access is intended to be controlled and time-bounded.

SCHEDULE

Technical and Organizational Measures - Continued

Current controls, planned capabilities and explicit non-claims.

CONTROL	STATUS	CURRENT STATEMENT
Audit history and change trail	Current	Evidence, findings, plans and reviewer actions preserve version and review history rather than silently overwriting prior state.
Operational and access logging	Current	Application and infrastructure logs support operations, security review and incident investigation.
Secure development	Current	Changes use source control, review and separated environments before production.
Vulnerability/dependency management	Configurable/current engineering tooling	Private SBOM and vulnerability tooling is used; no public certification or vulnerability-free guarantee is made.
Environment separation	Current	Development, preview/staging and production are separated; production customer data is excluded from lower environments as a design rule.
Backups	Current	Managed database backups are part of the production model; no public RTO/RPO guarantee is made unless stated in a signed SLA.
Incident response	Current	An internal response process exists; customer notification follows contract/DPA terms.
Formal third-party certification	Not claimed	CertaMaris does not claim SOC 2 or ISO 27001 certification unless and until separately completed and specifically published.

STATUS

CONTROLLED EXECUTION TEMPLATE

DOCUMENT OWNER

Legal / Procurement

APPROVER

Authorized CertaMaris Signatory

DOCUMENT PURPOSE / KEY MESSAGE

Provides a vendor-focused NDA emphasizing CertaMaris confidential information, customer security data, technical architecture and procurement discussions.

EFFECTIVE

Upon authorized execution

CLASSIFICATION

CONFIDENTIAL - LEGAL

LEGAL STATUS

Purpose, Scope and Controlled Use

Confidentiality agreement for suppliers, contractors and prospective vendors.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Purpose

Vendor evaluation or services purpose. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Protected Information

Business, technical, security, customer and procurement information. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Recipient Controls

Need-to-know, security and no unrelated use. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Customer Information

Additional protection for customer confidential/security information. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Exclusions

Standard exclusions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Compelled Disclosure

Notice and minimum disclosure. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Return / Destruction

Return/destruction and legal-hold exceptions. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. No Publicity

Public statements must be accurate, avoid implying certification or customer endorsement, respect confidentiality and customer brand requirements, and comply with CertaMaris's opt-in publicity position. CertaMaris will not use a customer name or logo in public marketing without affirmative permission, except where the customer separately authorizes such use in writing.

9. Term / Remedies / Law

Complete duration, equitable relief and governing law. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

LEGAL STATUS

Purpose, Scope and Controlled Use

Contractor terms for services, confidentiality, security and work-product ownership.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Services and Scope

The applicable agreement references SOW, deliverables, schedule and standards. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Independent Contractor Status

Contractor performs services as an independent contractor and not as an employee, partner, agent or joint venturer of CertaMaris, except for authority expressly granted in writing. Contractor is responsible for taxes, insurance and legal obligations applicable to contractor status. Nothing in this template overrides worker-classification law; the engagement must be structured consistently with actual facts and jurisdiction.

3. Fees and Expenses

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts. to the extent permitted by the Agreement.

4. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

5. Security and Acceptable Use

Customer will use the Services lawfully and in accordance with the Acceptable Use Policy; provide accurate scope, evidence and instructions; maintain rights and lawful bases for Customer Content; safeguard its own identities, endpoints, vessel/facility systems and integrations; review findings and AI-assisted outputs before reliance; and independently decide and validate corrective actions. CertaMaris supports assurance workflows but does not replace class, flag, port-state, legal, engineering, navigation, emergency-response or operational-safety authority.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

6. Work Product and IP Assignment

To the extent permitted by law and as consideration for the engagement, the service provider assigns to CertaMaris all right, title and interest in work product specifically created for CertaMaris under the agreement, including source code, documentation, designs, configurations, inventions and related intellectual-property rights, excluding identified pre-existing materials. The provider will execute further documents reasonably necessary to confirm ownership. Open-source and third-party materials must be disclosed and used in accordance with CertaMaris policy and license obligations.

7. Pre-Existing Materials

Require disclosure and license for incorporated contractor materials. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Open Source and Third-Party Materials

Require approval and license compliance. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Data Protection

This section addresses personal/customer data processing as applicable. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Representations

Authority, originality, conflicts and non-infringement. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Indemnification / Liability

CertaMaris will defend Customer against a third-party claim that authorized use of the paid Services infringes a United States patent, copyright or trademark and will pay finally awarded damages or approved settlement amounts, subject to prompt notice, CertaMaris control of defense, cooperation, and standard exclusions for Customer Content, unauthorized modifications, combinations, instructions or continued use after notice. Customer will defend CertaMaris against third-party claims arising from Customer Content, unlawful or unauthorized use, or Customer's failure to obtain required rights. The Order Form may modify indemnity scope.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

12. Term and Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

13. Non-Solicit / Restrictive Covenants

This section includes only if lawful and specifically approved for jurisdiction. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

14. General and Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Employment Relationship Reference

The applicable transaction document identifies employer and relationship to separate offer/handbook. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Confidential Information

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

3. Security and Systems

Require policy compliance, credentials and incident reporting. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Inventions and Work Product

To the extent permitted by law and as consideration for the engagement, the service provider assigns to CertaMaris all right, title and interest in work product specifically created for CertaMaris under the agreement, including source code, documentation, designs, configurations, inventions and related intellectual-property rights, excluding identified pre-existing materials. The provider will execute further documents reasonably necessary to confirm ownership. Open-source and third-party materials must be disclosed and used in accordance with CertaMaris policy and license obligations.

5. Excluded / Prior Inventions

To the extent permitted by law and as consideration for the engagement, the service provider assigns to CertaMaris all right, title and interest in work product specifically created for CertaMaris under the agreement, including source code, documentation, designs, configurations, inventions and related intellectual-property rights, excluding identified pre-existing materials. The provider will execute further documents reasonably necessary to confirm ownership. Open-source and third-party materials must be disclosed and used in accordance with CertaMaris policy and license obligations.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

6. Open Source and Third-Party IP

Require approval and compliance. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

7. Moral Rights / Further Assurances

This section includes only to extent lawful. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Records and Return of Property

Return devices, credentials, documents and copies at termination. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Protected Rights

Preserve lawful whistleblowing, government reporting and statutory rights. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Post-Employment Confidentiality

The applicable instrument states continuing confidentiality and trade-secret obligations. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. Governing Law / Notices

Operational notices may be sent through the Services or business email contacts. Formal notices of material breach, termination or legal process must use the notice details in the applicable Order Form or executed agreement and may also be routed through <https://certamaris.com/contact?intent=procurement> for triage. The applicable Order Form controls governing law and venue. If it is silent, the Agreement is governed by the law of the U.S. state in which the CertaMaris contracting entity identified in that Order Form is organized, without regard to conflicts rules, and exclusive venue lies in the state and federal courts located in that jurisdiction. The parties may agree to arbitration, jury waiver or another forum in the Order Form; no separate mandatory consumer arbitration regime is created by this baseline.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

12. Acknowledgment / Signature

Employee and company signature. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Advisory Services

The applicable agreement or schedule defines non-fiduciary scope, expected availability and no authority to bind. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Term

Start, duration and termination. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Compensation

Cash, equity or no-fee arrangement; reference separate equity grant if applicable. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Expenses

Pre-approval requirements. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

6. Conflicts and Compliance

Each party will comply with laws applicable to its performance, including applicable export-control, sanctions, anti-bribery and anti-corruption requirements. Customer will not use the Services for prohibited end users, embargoed activity, unlawful intrusion or safety-critical control. CertaMaris is a workflow and assurance technology provider; it does not issue class, flag-state or regulatory approvals and does not provide legal advice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Intellectual Property

CertaMaris and its licensors retain all right, title and interest in the Services, software, APIs, Documentation, templates, user-interface designs, control mappings, methodology, Cyber Resilience Twin framework, generalized know-how, and improvements that do not identify or disclose Customer Content. Customer receives only the rights expressly granted in the Agreement. Feedback may be used without restriction provided CertaMaris does not identify Customer or disclose Customer Confidential Information.

8. Publicity

Public statements must be accurate, avoid implying certification or customer endorsement, respect confidentiality and customer brand requirements, and comply with CertaMaris's opt-in publicity position. CertaMaris will not use a customer name or logo in public marketing without affirmative permission, except where the customer separately authorizes such use in writing.

9. Independent Relationship

No employment, benefits or agency. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Liability / Indemnity

Tailor to advisory risk. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

11. General and Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Assigned IP

Precisely identify software, code, documentation, marks, inventions or other rights. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Assignment

Assign worldwide rights, title and interest to extent legally transferable. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Consideration

The applicable instrument states consideration or reference related agreement. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Representations

Authority, ownership, no conflicting assignments and disclosed encumbrances. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Third-Party / Open Source

Disclose incorporated third-party materials and licenses. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Further Assurances

Require reasonable execution of confirmatory documents. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Moral Rights

Waiver/consent only to extent permitted. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. No Other Rights

Clarify retained rights if any. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Governing Law

Operational notices may be sent through the Services or business email contacts. Formal notices of material breach, termination or legal process must use the notice details in the applicable Order Form or executed agreement and may also be routed through <https://certamaris.com/contact?intent=procurement> for triage. The applicable Order Form controls governing law and venue. If it is silent, the Agreement is governed by the law of the U.S. state in which the CertaMaris contracting entity identified in that Order Form is organized, without regard to conflicts rules, and exclusive venue lies in the state and federal courts located in that jurisdiction. The parties may agree to arbitration, jury waiver or another forum in the Order Form; no separate mandatory consumer arbitration regime is created by this baseline.

10. Signatures / Notarization

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Appointment and Scope

Non-exclusive referral relationship and territory/market if any. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. No Authority

This corporate template is designed to record authority without inventing CertaMaris's entity type, formation state, board/member structure or current signatories. The executing version must identify the actual legal entity and governing authority and must comply with its formation documents and applicable law. The resolution may authorize identified persons or roles within stated transaction/risk limits while reserving equity, financing, M&A, dissolution and other legally reserved matters.

3. Lead Registration

The applicable agreement or schedule defines qualifying lead, registration and conflict rules. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Referral Fees

Fees, subscription scope and billing frequency are stated in the applicable Order Form. Invoices are due Net 30 unless the applicable Order Form states otherwise. Overdue undisputed amounts may accrue a late charge at the lesser of 1.5% per month or the maximum rate permitted by law. Customer is responsible for applicable sales, use, VAT and similar transaction taxes other than taxes based on CertaMaris's net income, subject to valid exemption documentation. CertaMaris may suspend affected Services for unpaid undisputed amounts after 10 days after written notice for nonpayment of undisputed amounts. to the extent permitted by the Agreement.

5. Sales Process

CertaMaris controls pricing, contracting and acceptance. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Brand and Marketing

Public statements must be accurate, avoid implying certification or customer endorsement, respect confidentiality and customer brand requirements, and comply with CertaMaris's opt-in publicity position. CertaMaris will not use a customer name or logo in public marketing without affirmative permission, except where the customer separately authorizes such use in writing.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

8. Compliance

Each party will comply with laws applicable to its performance, including applicable export-control, sanctions, anti-bribery and anti-corruption requirements. Customer will not use the Services for prohibited end users, embargoed activity, unlawful intrusion or safety-critical control. CertaMaris is a workflow and assurance technology provider; it does not issue class, flag-state or regulatory approvals and does not provide legal advice.

9. No Employment / Agency

Independent contractor status. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Term and Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

11. Liability / Indemnity

Allocate partner misconduct risk. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

12. General / Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Appointment

The applicable agreement or schedule defines non-exclusive/exclusive status, territory and products. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Resale Model

The applicable transaction document specifies whether reseller contracts with customer or acts as agent/referral source. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Orders and Acceptance

The applicable agreement or schedule defines order submission and CertaMaris acceptance. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Pricing and Discounts

The applicable transaction documents set reseller discount, price protection and prohibited commitments. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Customer Terms

Require approved customer terms and no unauthorized warranties. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Branding and Marketing

Public statements must be accurate, avoid implying certification or customer endorsement, respect confidentiality and customer brand requirements, and comply with CertaMaris's opt-in publicity position. CertaMaris will not use a customer name or logo in public marketing without affirmative permission, except where the customer separately authorizes such use in writing.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Support Responsibilities

The applicable agreement or schedule defines L1/L2/L3 support and escalation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Data Protection

The applicable agreement or schedule defines customer personal data roles and DPA requirements. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Security

Require secure handling of credentials and customer information. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Compliance

Each party will comply with laws applicable to its performance, including applicable export-control, sanctions, anti-bribery and anti-corruption requirements. Customer will not use the Services for prohibited end users, embargoed activity, unlawful intrusion or safety-critical control. CertaMaris is a workflow and assurance technology provider; it does not issue class, flag-state or regulatory approvals and does not provide legal advice.

11. Reporting and Records

Pipeline, sales and audit records. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

12. IP and Confidentiality

Protect CertaMaris IP and confidential information. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

13. Term / Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

14. Liability / Indemnity

Allocate unauthorized representations and misconduct. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

15. General / Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

LEGAL STATUS

Purpose, Scope and Controlled Use

Partnership terms for integrations, APIs, joint solutions and co-marketing.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Purpose and Integration

This section describes technical/business objectives and integration scope. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Technical Access

API keys, sandbox/production access, rate limits and documentation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

3. Security

Credential protection, vulnerability handling and incident cooperation. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Data Roles

For Customer Personal Data, Customer is controller and CertaMaris is processor, unless Customer itself acts as processor for another controller, in which case CertaMaris acts as subprocessor. CertaMaris may independently process limited account, security, billing and business-contact data as controller for service administration, security, legal compliance and B2B relationship management.

5. Intellectual Property

CertaMaris and its licensors retain all right, title and interest in the Services, software, APIs, Documentation, templates, user-interface designs, control mappings, methodology, Cyber Resilience Twin framework, generalized know-how, and improvements that do not identify or disclose Customer Content. Customer receives only the rights expressly granted in the Agreement. Feedback may be used without restriction provided CertaMaris does not identify Customer or disclose Customer Confidential Information.

6. Brand and Co-Marketing

Public statements must be accurate, avoid implying certification or customer endorsement, respect confidentiality and customer brand requirements, and comply with CertaMaris's opt-in publicity position. CertaMaris will not use a customer name or logo in public marketing without affirmative permission, except where the customer separately authorizes such use in writing.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Support and Maintenance

Integration support ownership and change notification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Commercial Terms

Revenue share, fees or no-fee collaboration. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

10. Compliance

Each party will comply with laws applicable to its performance, including applicable export-control, sanctions, anti-bribery and anti-corruption requirements. Customer will not use the Services for prohibited end users, embargoed activity, unlawful intrusion or safety-critical control. CertaMaris is a workflow and assurance technology provider; it does not issue class, flag-state or regulatory approvals and does not provide legal advice.

11. Term / Termination

The Agreement begins on the effective date stated in the applicable Order Form and continues while an Order Form remains in effect. Unless an Order Form states otherwise, a subscription renews for successive 12-month periods unless either party gives at least 30 days written notice before the then-current term ends. Either party may terminate for material breach not cured within 30 days after written notice for a material breach capable of cure.; the payment cure period is 10 days after written notice for nonpayment of undisputed amounts.. CertaMaris may suspend access for material security risk, unlawful use, Acceptable Use violations, or nonpayment, using reasonable efforts to limit impact. Insolvency and other non-curable termination rights apply as stated in the Agreement and applicable law.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

12. Liability / Indemnity

Allocate integration failures, data misuse and IP claims. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

13. General / Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

CONFIDENTIAL - LEGAL

LEGAL STATUS

Purpose, Scope and Controlled Use

Transfer schedules for EU SCCs, UK Addendum/IDTA and Swiss adaptations.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Transfer Scope

CertaMaris and its providers may process data in the United States and other locations needed to provide the Services. Where a restricted transfer requires safeguards, the parties will use an available lawful mechanism, including the European Commission Standard Contractual Clauses (Module 2 for controller-to-processor and Module 3 where the customer is itself a processor, as applicable), the UK Addendum or other valid UK mechanism, and Swiss adaptations where required. Transfer annex particulars remain customer- and transfer-specific and are completed when the relevant mechanism applies.

2. EU SCC Incorporation

Where the EU Standard Contractual Clauses are required, the 2021 SCCs are incorporated by reference for the applicable transfer. Module 2 applies where Customer is controller and CertaMaris is processor; Module 3 applies where Customer is processor and CertaMaris is subprocessor. Optional choices, exporter/importer identities, competent supervisory authority, governing Member State and courts are completed for the actual transfer and may be stated in the Order Form or transfer annex.

3. SCC Annex I

Complete parties, transfer description, categories, frequency and retention. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. SCC Annex II

Attach verified technical and organizational measures. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. SCC Annex III

The applicable schedule lists subprocessors if required. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. EU Governing Member State / Courts

Complete permitted choices. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Supervisory Authority

This corporate template is designed to record authority without inventing CertaMaris's entity type, formation state, board/member structure or current signatories. The executing version must identify the actual legal entity and governing authority and must comply with its formation documents and applicable law. The resolution may authorize identified persons or roles within stated transaction/risk limits while reserving equity, financing, M&A, dissolution and other legally reserved matters.

8. UK Transfers

For UK restricted transfers, the parties will use the UK Addendum to the EU SCCs or another then-valid UK transfer mechanism appropriate to the parties' roles and transfer facts. The required tables/particulars are completed for the customer engagement when the mechanism is needed.

9. Swiss Transfers

For transfers subject to the Swiss Federal Act on Data Protection, the applicable SCCs or other lawful mechanism will be adapted as required by Swiss law, including references to Swiss law, supervisory authority and data subjects where the mechanism requires those modifications.

10. Supplementary Measures

CertaMaris will use technical and contractual measures appropriate to the transfer risk, which may include encryption in transit and at rest, access minimization, tenant isolation, provider contractual commitments, region selection, disabled prompt-body logging for approved confidential AI routes, no external web tools for such routes, and transfer-risk review. The specific assessment is maintained as a controlled compliance record rather than embedded as a static public claim.

11. Transfer Impact / Risk Assessment

CertaMaris will use technical and contractual measures appropriate to the transfer risk, which may include encryption in transit and at rest, access minimization, tenant isolation, provider contractual commitments, region selection, disabled prompt-body logging for approved confidential AI routes, no external web tools for such routes, and transfer-risk review. The specific assessment is maintained as a controlled compliance record rather than embedded as a static public claim.

12. Precedence

The applicable instrument states transfer terms control to extent legally required. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TRANSFER SCHEDULE

International Transfer Framework

Standing mechanism; transaction-specific exporter/importer particulars are completed only when required.

1. EU SCC role selection

Module 2 when Customer is controller and CertaMaris is processor; Module 3 when Customer is processor and CertaMaris is subprocessor.

2. UK

Use the UK Addendum to the EU SCCs or another then-valid UK transfer mechanism where required.

3. Switzerland

Use required Swiss FDPA adaptations to the chosen mechanism where applicable.

4. Supplementary measures

Encryption, access minimization, tenant isolation, provider contractual commitments, region selection, and data-classification restrictions including no external AI for RESTRICTED data.

5. Transfer-risk assessment

Maintained as a controlled record for the actual transfer and reviewed when providers, jurisdictions or material technical measures change.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Matter and Authority

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

2. Recipients / Custodians

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

3. Preservation Scope

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

4. Systems and Data Sources

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

5. Suspension of Deletion

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

6. No Alteration / Concealment

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Collection Instructions

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

8. Confidentiality

Each party will protect the other's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Customer vulnerability findings, network-zone maps, remote-access pathways, technical inventories, cyber plans and actual security posture are Customer Confidential Information. CertaMaris methodology, non-public product architecture, security materials and commercial terms are CertaMaris Confidential Information. Standard exclusions apply for information lawfully public, previously known without duty, independently developed, or rightfully received from a third party. Confidentiality duties continue for five years after disclosure or termination; trade secrets remain protected for so long as they qualify as trade secrets under applicable law. Required legal disclosures are permitted with notice where lawful.

9. Acknowledgment

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

10. Release of Hold

Upon issuance of a legal hold, recipients must preserve potentially relevant records in their existing form, suspend routine deletion for the identified scope, avoid alteration or concealment, preserve relevant metadata where reasonably possible, and follow collection instructions. Only an authorized written release ends the hold. The specific matter, custodians, sources and preservation scope are transaction-specific fields completed when the hold is issued.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Entity and Authority

This corporate template is designed to record authority without inventing CertaMaris's entity type, formation state, board/member structure or current signatories. The executing version must identify the actual legal entity and governing authority and must comply with its formation documents and applicable law. The resolution may authorize identified persons or roles within stated transaction/risk limits while reserving equity, financing, M&A, dissolution and other legally reserved matters.

2. Background / Recitals

The parties intend to document the specific transaction described in this instrument while preserving CertaMaris's standing B2B, security, confidentiality and data-protection requirements. CertaMaris provides a browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform; transaction-specific scope, counterparty identity, fees, deliverables, territory, dates or approvals are completed at execution.

3. Resolutions

This corporate template is designed to record authority without inventing CertaMaris's entity type, formation state, board/member structure or current signatories. The executing version must identify the actual legal entity and governing authority and must comply with its formation documents and applicable law. The resolution may authorize identified persons or roles within stated transaction/risk limits while reserving equity, financing, M&A, dissolution and other legally reserved matters.

4. Authorized Officers / Signatories

Delegate implementation authority. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Ratification

Ratify prior consistent actions if appropriate. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Effective Time

The applicable instrument states when consent becomes effective. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Counterparts / Electronic Signature

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

8. Recordkeeping

Require inclusion in corporate minute book / controlled repository. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Entity Authority

This corporate template is designed to record authority without inventing CertaMaris's entity type, formation state, board/member structure or current signatories. The executing version must identify the actual legal entity and governing authority and must comply with its formation documents and applicable law. The resolution may authorize identified persons or roles within stated transaction/risk limits while reserving equity, financing, M&A, dissolution and other legally reserved matters.

2. Authorized Persons

This corporate template is designed to record authority without inventing CertaMaris's entity type, formation state, board/member structure or current signatories. The executing version must identify the actual legal entity and governing authority and must comply with its formation documents and applicable law. The resolution may authorize identified persons or roles within stated transaction/risk limits while reserving equity, financing, M&A, dissolution and other legally reserved matters.

3. Authorized Instruments

The applicable agreement or schedule defines agreements, orders, banking/filing documents and dollar/risk thresholds. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Excluded / Reserved Matters

The applicable instrument states matters that remain board/member reserved. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Dual Approval Requirements

The applicable agreement or schedule defines categories requiring second approval. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. Duration / Revocation

The applicable transaction documents set effective date, expiration or until revoked. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Certification

Allow secretary/authorized officer certification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Recordkeeping

Update authority matrix and corporate records. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.

LEGAL STATUS

Purpose, Scope and Controlled Use

Consent template for approved use of customer names, logos or trademarks.

This document has been populated with CertaMaris standing business, platform, security, privacy, AI and commercial positions. It remains a reusable execution template because the actual counterparty, transaction, fees, dates, signatures, jurisdictional corporate particulars or other deal-specific facts vary by engagement. Those fields must be completed before execution.

CertaMaris standing facts used by this document

- Service model: negotiated business-to-business contracts; no consumer or self-service signup model is assumed by these documents
- Platform: browser-based B2B maritime cybersecurity, compliance, assurance, risk-intelligence and operational-resilience SaaS platform
- Customer owns Customer Content; CertaMaris receives only rights needed to provide, secure and support the Services.
- High-sensitivity cyber posture and vessel/facility technical content is treated as Customer Confidential Information.
- Security reporting: security@certamaris.com
- Procurement/legal-document requests: <https://certamaris.com/contact?intent=procurement>

Transaction-specific fields intentionally left for execution include the actual CertaMaris legal entity and formation jurisdiction (if not already established in the Order Form), counterparty identity, addresses, signatory names/titles, signature dates, commercial scope/fees, and any negotiated governing-law or venue choice.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

1. Parties and Marks

The applicable transaction document identifies customer and approved marks. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

2. Permitted Uses

Any customer name, logo or trademark use is affirmative and limited to the uses expressly authorized in this permission. CertaMaris will not use a customer name or logo in public marketing without affirmative permission, except where the customer separately authorizes such use in writing. Permission does not imply certification, endorsement or broader rights, may be conditioned on brand guidelines and approval of copy/artwork, and may be revoked prospectively subject to reasonable removal time for materials already in production.

3. Territory and Channels

The applicable agreement or schedule defines where and how marks may appear. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

4. Brand Guidelines

Require compliance with customer brand standards. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

5. Approval Process

Require pre-approval of copy or artwork if desired. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

6. No Endorsement

Avoid implying broader endorsement or certification. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

TERMS / NOTICE

Operative Provisions

CertaMaris-specific standing content for this controlled release.

7. Term and Revocation

The applicable agreement or schedule defines duration and removal after revocation/termination. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

8. Ownership

This section confirms customer retains ownership and goodwill. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

9. No Sublicense

Limit sharing except service providers producing approved materials. CertaMaris and the counterparty will apply this requirement consistently with the Agreement, CertaMaris security and data-classification controls, and applicable law. Transaction-specific names, amounts, dates, territories, deliverables, approvals and jurisdictional choices are completed in the Order Form, SOW, schedule, notice or execution block as applicable rather than pre-populated in this reusable form.

10. Signatures

This instrument may be executed in counterparts and by electronic signature to the extent permitted by law. The CertaMaris signatory must be authorized under the company's then-current delegation of authority. Counterparty names, addresses, signatory names/titles and signature dates are completed at execution and are intentionally not pre-populated in the reusable template.

DOCUMENT CONTROL

Execution, Publication and Revision Record

Reusable records remain controlled; customer/counterparty signatures are completed only for the actual transaction.
